

NEW!

RITRON®

MINI QUICK ASSIST®

WIRELESS CALL BUTTON

- ▶ Increase customer satisfaction.
- ▶ Boost employee productivity.
- ▶ Prevent merchandise loss.

The new *Mini Quick Assist* Wireless Call Button (Mini RQA) boasts the same proven performance and functionality as the standard Quick Assist in a more compact, low-profile footprint ½ the size. Compatible with other analog radio systems, the *Mini Quick Assist* delivers clear, customized prerecorded messages to radio-equipped personnel at the push of a button. Ideal for applications where mounting space is limited, and a call button with a smaller footprint is needed. The *Mini Quick Assist* helps improve response times, increase staff efficiency, and will enhance the customer experience.

New, compact Mini Quick Assist Wireless Call Button!

Dimensions:

6.1"H x 2.7"W x 2.7"D

No Wi-Fi
Required

No Wires,
Easy Install

No Fees or
Subscriptions

Made in USA

WHERE CAN YOU USE THE MINI QUICK ASSIST® CALL BUTTON?

Ideal Applications: locked merchandise display case, customer service counter, parts counter, paint department, fitting room, customer pick-up, reception desk, electronic department, jewellery counter, and more!

Half The Size, Same Full Size Performance

Low Ownership Cost

Built to last, easy to install and maintain, and with no fees or ongoing costs, the Mini RQA adds value to your operation every day it is used.

No Network Needed

Works independent of Wi-Fi network infrastructure, which makes for a decentralized more robust system with increased uptime and less security concerns.

Eliminates PA Pollution

Don't blast PA announcements for everyone to hear. When pressed, the Mini RQA instantly sends an alert to a radio-equipped staff member.

Customize Your Experience

Record customized voice messages to alert your staff, minimizing confusion and maximizing response speed.

Instant Request Confirmation

When pressed, the Mini RQA displays an LED light to provide visual confirmation to customers that their request has been sent.

Installs Anywhere, No Wires

Operating on batteries, the Mini RQA allows for stand-alone operation and can be installed or relocated with ease.

Increase Productivity

Waiting around or looking for a customer to assist wastes valuable time. The Mini RQA notifies staff when and where help is needed.

Compatible, Seamless Integration

Leverage the radios you already have! The Mini RQA is compatible with most VHF, VHF MURS, UHF, and UHF GMRS radios, making integration simple and less costly.

Leverage Your 2-Way Radios!

MINI QUICK ASSIST FEATURES & SPECIFICATIONS

- Small, Compact Design:
